SERVICE LETTER #49

TO: All Champion Dealers, Distributors, and Owners of Model 7JG.

FROM: Champion Aircraft Corporation

SUBJECT: Conversion of Model 7JG to Model 7EC.

GENERAL: The Model 7JG may be converted to a Model 7EC if accomplished according to the following instructions.

- A. Remove aft gear assembly.
- B. Install Tailwheel Assembly according to drawing indicated in item 202 Aircraft Specification A-759.
- C. Close the opening in the lower fuselage with either fabric or aluminum according to the schedule outlined in Manual 18.
- D. Observe the requirements for the Model 7EC at 1500# as stated in Aircraft Specification A-759 (operations limitations, loading envelope and equipment).
- E. The aircraft name plate should be restamped "7EC Serial No. _____ Conv." Do not change original serial number.

The additional steel tube structure in the area of the aft wheel assembly need not be removed. The battery location on the firewall is satisfactory for the Model 7EC.
