FAA DER Approved

SERVICE LETTER #61

SUBJECT: To provide basic general information to field personnel as to applicability of various optional installation items on Champion Models 7AC, 7BCM, (L-16A), 7CCM (L-16B), 7DC, and 7EC.

ITEM 1: Kit #192 (26 gallon fuel system) may be installed in Models 7AC, 7BCM, 7DC and 7EC according to instructions supplied with Kit. (INCLUDE 7CCM) (See Spec. A-759, Item 116)

ITEM 2: The clamp on dorsal fin may be installed on the 7AC and 7BCM without conversion to any other model as per instructions with Kit #178. (See Spec. A-759, Item 618)

ITEM 3: The 3-665 "No-Bounce Oleo" may be installed on 7AC, 7BCM, 7CCM or 7DC at any time according to Champion Service Letter #20. Axle, oleo and attachment interchangeability for these Models is given on Service Letter #51.

ITEM 4: Service Letter #6 and Helps and Hints #8 give information related to repair of landing gear and attachment fittings for Models 7AC, 7BCM, 7CCM, and 7DC.

ITEM 5: Service Letter #30 gives information related to importance of oil level in 3-433 oleo. Service Letter #42 gives information related to importance of oil level in 3-665 "No-Bounce" oleo.
